### **NO PHONE CALLS PLEASE**

Diablo Water District in Oakley, California has an opening for a full-time Water Distribution System Worker. We desire a motivated individual capable of following through on directions, experience working with tools on small fittings, good math skills and able to learn.

The successful candidate will most likely receive experience in:

Operating a Supervisory Control and Data Acquisition System; Underground Service Alert utility marking; water quality sampling; Backflow Prevention; meter testing, reading, and repair; Sodium Hypochlorite, Ammonia and Fluoride chemical dosing – operations and maintenance; well pump operations; distribution system valve turning; Corporation Yard and well site maintenance; skilled and semi-skilled operations and maintenance tasks.

### **Desirable Qualifications and Requirements:**

1. Have the ability to learn and follow through on directions given.
2. This is a safety sensitive position and the passing of a pre-employment drug test and background check is required.
3. Must have a valid CA driver's license with a clean driving record.
4. Possession of a D2, T2, and/or Backflow Tester certification is desirable, or able to secure within two years of employment.
5. Mechanics, plumbers, electricians, and those with instrumentation experience are encouraged to apply.
6. Have a desire to follow through on water system education.

**Diablo Water District is an Equal Opportunity Employer**
